RPA-Project Technical Manager	\$	225.00	\$	247.50
<b>RPA - Process Architect I</b>		<p>Collaborate with FEMA requirements managers / owners to perform automation feasibility analysis, architect standard solutions, designs, and implement new and enhanced capabilities. This resource addresses problems of systems integration, compatibility, and multiple platforms. This resource will support the adaptation of functional business requirements and processes to enterprise technical solutions, leveraging Robotics Process Automation (RPA) UiPath software, support all phases of testing.</p>		
RPA - Process Architect I	\$	180.00	\$	198.00
<b>RPA - Process Architect II</b>		<p>Collaborate with FEMA requirements managers / owners to perform automation feasibility analysis, architect standard solutions, designs, and implement new and enhanced capabilities. This resource addresses problems of systems integration, compatibility, and multiple platforms. This resource will support the adaptation of functional business requirements and processes to enterprise technical solutions, leveraging Robotics Process Automation (RPA) UiPath software, support all phases of testing.</p>		
RPA - Process Architect II	\$	155.00	\$	170.50
<b>RPA - Senior Business Analyst</b>		<p>Senior Process/Business Analyst: Translates client needs to business requirements, designs/redesigns and documents processes for simple and complex processes. Experience working with customer to fully understanding simple and complex processes. Proficient at developing process documentation and design for simple and complex processes.</p>		
RPA - Senior Business Analyst	\$	138.00	\$	151.80

<b>RPA - Mid Level Business Analyst</b>			Mid-Level Process/Business Analyst: Translates client needs to business requirements, designs/redesigns and documents processes. Experience working with customer to fully understanding simple processes. Experienced in process documentation and design for simple processes.
RPA-Mid Level Business Analyst	\$ 130.00	\$ 143.00	
<b>RPA - Automation Programmer I</b>			The resource will provide automation development and configuration, testing and operational maintenance of RPA use case(s), using software tools such as UiPath. The resource will assist team members and/or functional designers in researching and documenting requirements; analyze objectives and identify solutions; and translate solutions provided by Business Analysts into process automations. They will assist with preparation of documentation, complete code quality and peer reviews, assist with the production support including break/fix and automation enhancement development and testing.
RPA - Automation Programmer I	\$ 184.00	\$ 202.40	
<b>RPA - Automation Programmer II</b>			The resource will provide automation development and configuration, testing and operational maintenance of RPA use case(s), using software tools such as UiPath. The resource will assist team members and/or functional designers in researching and documenting requirements; analyze objectives and identify solutions; and translate solutions provided by Business Analysts into process automations. They will assist with preparation of documentation, complete code quality and peer reviews, assist with the production support including break/fix and automation enhancement development and testing.
RPA - Automation Programmer II	\$ 172.00	\$ 189.20	
<b>RPA - Automation Programmer III</b>			The resource will provide automation development and configuration, testing and operational maintenance of RPA use case(s), using software tools such as UiPath. The resource will assist team members and/or functional designers in researching and documenting requirements; analyze objectives and identify solutions; and translate solutions provided by Business Analysts into process automations. They will assist with preparation of documentation, complete code quality and peer reviews, assist with the production support including break/fix and automation enhancement development and testing.
RPA - Automation Programmer III	\$ 168.00	\$ 184.80	
<b>RPA - Automation Programmer IV</b>			The resource will provide automation development and configuration, testing and operational maintenance of RPA use case(s), using software tools such as UiPath. The resource will assist team members and/or functional designers in researching and documenting requirements; analyze objectives and identify solutions; and translate solutions provided by Business Analysts into process automations. They will assist with preparation of documentation, complete code quality and peer reviews, assist with the production support including break/fix and automation enhancement development and testing.
RPA - Automation Programmer IV	\$ 140.00	\$ 154.00	
<b>RPA - Subject Matter Expert (SME)</b>			Provides advisory support and strategic guidance for process automation design solutions based on best practices. Experienced in helping troubleshoot issues and provide quality control reviews for simple and complex process design and automation projects. Experience engaging customers and translating customer needs to the actionable and optimized process design inputs.
RPA - Subject Matter Expert (SME)	\$ 255.00	\$ 280.50	

<b>RPA - Project Analyst</b>		The resource shall provide support for FEMA and contractor program management in the completion of automation program deliverables, status reporting, documentation updates and version control. In addition, the resource will assist Business Analysts with automation delivery tasks as required.
